

**Online  
Process Orientation Training Programme on (POT)  
Child Centric Disaster Risk Reduction(CCDRR)  
(POT CCDRR)**

**25-27 February 2021,**

**05.00 PM-07.00 PM**

**National Institute of Disaster Management, New Delhi  
&  
Teachers of Bihar – The Change Makers, Bihar**

## BACKGROUND

Disasters threaten the lives, constitutional rights and needs of the children worldwide. In past three decades India have faced devastating disasters such as Latur Earthquake (1993), Odisha Super Cyclone (1999), Bhuj Earthquake (2001), Indian Tsunami (2004), Jammu & Kashmir Earthquake (2005), Urban Flood in Mumbai (2005), Bihar Floods (2008), Uttarakhand Floods (2013), Cyclone Phailin (2013), Srinagar Flood (2014), Chennai Flood (2015), Kerala Flood (2018), and Cyclone Fani (2019).

Droughts hits Andhra Pradesh, Gujarat, Karnataka, Maharashtra, Rajasthan, Tamilnadu and Telangana. Bihar, Jharkhand and parts of North East are also drought prone. These states are home to nearly 500 million people, almost 40% of the country's population.

Droughts are slow onset disasters, adversely affecting women and children. Karnataka (16 districts) and Andhra Pradesh (4 districts) experienced at least 10 droughts between 2001-2015. During these emergencies, children are especially vulnerable to diseases, malnutrition, and violence and trafficking. Measles, diarrhoea, acute respiratory infections, malaria and malnutrition are the major killers of children during humanitarian crises. In future, vulnerability of children is expected to increase as the intensity and frequency of natural disasters rises.

Keeping in view the increasing vulnerability of children from climate change and natural disasters, National Institute of Disaster Management (NIDM), Ministry of Home Affairs, Government of India has established “**Child Centric Disaster Risk Reduction (CCDRR) Centre**” to mainstream child centric DRR

activities through Training, Research, Advocacy and Consultancy.

## AIM OF TRAINING

This **3 Days Online Process Orientation Training (POT) Programme on Child Centric Disaster Risk Reduction (CCDRR)** is intended for Trainers/ Teachers/ Professors/ Faculties of State level Universities, Colleges, Schools , Administrative Training Institutions and civil society trainers to help build their knowledge, skills and perspectives towards child centric disaster risk reduction. This will help officials understand and prepare for risk informed planning, sectoral readiness and preparedness for emergencies so as children are not deprived of basic amenities.

## OBJECTIVES

***At the end of this course, participants will be able to:***

- Explain the Disaster Management Mechanism in India
- Identify and list the activities to protect and the children and their rights.
- Describe the ways to involve children DRR activities
- Explain the process of psychological care for children in disasters
- Draft and apply strategies for home to home school safety with the engagement of children
- Explain the process of mainstreaming child-centric risk management

## COURSE MODULE

This Course has two modules and contents of the course would touch upon the following aspects, to achieve the objectives:

## **Module-I: Disaster and Children**

Session -1: Disaster Management  
Mechanism in India

Session-2: Commitments to Children in  
Disaster

## **Module-II: Approaches to Child Centric Disaster Risk Reduction**

Session-4: Engaging Children in DRR

Session-5: Children in Disasters and  
Emergencies: A Methodical Understanding  
from a Psychological Perspective.

Session-6: Ensuring Home to Home School  
Safety
